

Conditions for commercial license for Link-it Create

As a holder of a commercial license for Link-it Create you undertake to send a free copy of every product that has been produced with the program to the Swedish Institute for Special Needs Education. Products are Linked books and Link lists with corresponding video files.

The purpose of free copies is to give the Swedish Institute for Special Needs Education an insight into how the program is used and any new methods of application and target groups that have been added. Stated limits and possibilities may then be used as a base for future changes of functions and additions. The products may be used as good examples when marketing Link-it. In these cases the producer will be stated. If the producer for any reason does not accept that the free copies will be used for marketing Link-it, this must be stated when the product is sent to us. The copyright goes to the producer.

Holders of a commercial license for Link-it Create will automatically be connected to a user group in which problems and solutions may be discussed.

Updates of Link-it will be performed continuously. These can be downloaded free of charge via the Internet. New versions may be developed in the future based on suggestions from the user group. Information about new versions will be available on the home page.

I have taken part of and accept the conditions stated above
